Elite Specialty Meats is your leader in "Five Star" restaurant quality food delivered directly to your door!

At Elite Specialty Meats we hold ourselves responsible to deliver the highest quality food products at the most cost effective prices for products of similar quality. Unlike many other highly advertised companies we don't hide behind "marketing words" like Premium, Premiere, Blue label, Super Trimmed, or "Our Own Brand" to disguise what we are selling.

All of our steaks are rated USDA "Choice" Grade "A" or higher by the United States Department of Agriculture.

Since 1913 our products were sold almost exclusively to 5 Star restaurants and top country clubs across the country. Until Now!! With Elite Specialty Meats you can now have these outstanding products delivered directly to your door!

Our meats come from the highest quality Midwestern grain fed steer and rated in the top 2% of all meats available. No steroids or preservatives, cut by master meat cutters, marbled to excellence, wet aged at least 28 days to perfection, robust in flavor, portion controlled, and flash frozen - sealing in all of the juices inside!

Our products are **Exclusive** and are not available in stores or anywhere else for that matter!

Although stores sell many grades of meats none of them go through our lengthy quality preparation process. Meat markets and grocery stores simply do not have the time to do what it takes to ensure the very best when it comes to great taste. For them it's about speed and moving as much product as fast as they can. For us it's about PERFECTION!! It's about taking the time to create the healthiest and very best tasting products for you and your family!

If you like variety, don't forget to try our 'top of the line' seafood, poultry, and pork products for a terrific change of pace! We also have a complete line of USDA "Prime" Grade "A" steaks available. Please call for current pricing or placing special orders.

We guarantee 100% customer satisfaction! If you are not fully satisfied with your order we will happily replace it or refund your money - whichever you prefer.
